

Onsite Treatment Services AS (OTS)

Vision and Strategy: Waste Handling & treatment Solutions

Success is the only option when dealing with drilling waste management

A true service company

We are in the business of providing effective HSE-oriented solutions for the handling, processing, and treatment of waste materials. OTS products are designed in accordance with true environmentally friendly principles. Our personnel are highly experienced, but, most importantly:

Our dedication to making improvements on behalf of our clients is genuine

Strategic principles:

- **Business-oriented:** At OTS we want to be business-oriented, be updated on our market, know the needs, and have a good touch with further developments.
 - **Targeted:** At OTS we will be targeted to achieve the desired results with regard to customer satisfaction and our own results.
 - **Focused:** At OTS we will focus on our activities so that we can perform all our duties in a safe manner and deliver on time.
 - **Action-oriented:** At OTS we will be action-oriented; we should know what is needed to achieve both targets and objectives.
-
